Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 2-10, 12-16, 18-22, 24-27, 29-31, 34, 37, 40, 43 in the reply filed on 2-1-2005 is acknowledged.

Claims 32, 33, 35, 36, 38, 39, 41, 42, 44 and 45 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 2-1-2005.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 2-10, 12-16, 18-22, 24-27, 29-31, 34, 37, 40, 43 rejected under 35 U.S.C. 102(b) as being anticipated by Haluska et al 4,830,006. Haluska teaches an implantable device that monitors cardiac data in terms of tachycardia fibrillation, treatment success as well as other functions. The device categorizes episodes into groups of tachycardia and fibrillation based upon the cardiac rate and fibrillation rate. Within each class the device administers a pulse treatment and monitors the heart for success. Upon an unsuccessful pulse energy may be increased for subsequent pulses until success has been achieved, the optimum pulse level. Thus the device adjusts DFSE for each of cardiac rate, fibrillation rate and time since last shock since the device only

allows so much time before the next higher energy shock is administered. The device uses a microprocessor which would include a computer readable media. In addition the leap between at least one increase of energy is linear since any two points define a straight line.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
